

GRAVEYARD ROMEOS

Graveyard Romeos was born out of a group of individuals with a true passion for music. Ever since coming together in 2012, they have been privileged to share their devotion to music and live performance with fans all over the state.

Having mainly been in original projects (Patrick is a former member of Shatter Messiah (Mausoleum Records), Steve, formerly of Pownd (Nightmare Records/Sony RED), and Jeff was a touring drummer for Molly Hatchet), it was a natural evolution for the band to eventually begin writing original material.

In early 2018, the band went into the studio and a short while later, emerged with the EP entitled, GYR, after the abbreviated name given to them by their fans.

Over the years, the band has had the wonderful opportunity to have shared the stage with bands such as Ratt, Drowning Pool, Saliva, and Saving Abel to name just a few.

Having overcome many challenges in a demanding industry, they are creating a distinct sound and are receiving well-deserved industry acclaim, winning the Lexi Award in 2019 for "Best Cover Band" and in 2020 for "Best Metal Band".
